

## Coach Drop-Off Point Information

### **Important notice – coach arrivals**

Due to a weight restriction, coaches are not able to cross over the bridge. Coaches must arrive and depart from the Clifton side of the bridge using our coach drop off bay.

The coach drop-off point is on Observatory Road, Clifton Village, near to the junction with Bridge Road and about 150 metres from the bridge. This dedicated coach drop-off bay has a 10-minute waiting time restriction. The nearest postcode for this space is BS8 4AW. It may be useful to turn on the ‘avoid toll routes’ option on your Sat Nav.

Please note that there is a weight limit for the bridge and that there is no turning space on the approach road, so do not drive past this point.

If you are arriving by Minibus, you are welcome to arrive on the Leigh Woods side of the bridge and pull into the entrance of North Road. The students can alight the bus with the supervision of a teacher and a member of Clifton Suspension Bridge staff. The minibus will be able to find parking further down North Road and the driver can return to the Museum when they are ready.

Please note that whilst coaches are able to drop-off and pick-up passengers a short walk from the bridge, we ask that drivers park elsewhere when waiting for groups. All up to date coach parking information is available at: <https://travelwest.info/bus/bristol-coach-parking>
